---

ALCON,

A recap of yesterday's and today's meeting:

- Camp population estimated to start at 2k and grow to 4K, 7.5K maximum
- area to be cleared approximately 75 acres (NEPA documents already cover this area).
- Environmental document estimated to take 14-21 days, will cover parcel #2
- Request to use Site monitor as a Co-located between DHS and DHHS, for storage, offices, etc..
- IOC - 10 Aug 18; potential to move right
- Site to use Army standards for construction
- Emergency services; generate an MOA between City and County for Montana Blvd
- Request for network services
- Need to submit service order for PRIDE to replace 66 signs, along Montana
- Repair existing 4-strand barbed wire along Montana Blvd, approximately 1/2 mile; some grading may be required.
- Site Monitor: water line has a dead end, could be the cause of contamination; recommend constructing a loop within the site.
- DHS to construct a security fence
- During site visit, several unidentified vehicles hastily left the dessert when survey group arrived
- Asked if DPW service contracts may be used, e.g. pest control, refuse collection, etc..

Subject: RE: Draft Utility Maps (UNCLASSIFIED)

Sir,

I have not been able to write an update on the meetings yesterday and today.

Big change today is that the LOGCAP team wants to develop parcels west of Site Monitor and utilize Site Monitor buildings for admin, medical, legal, etc.

Issues are going to be:

- pressurize system for water to use as fire suppression and restrooms in Site Monitor
- what is the potable source?
- how much power can be supplied from the Site Monitor to the DHS site?
- where are the sewage manholes at Site Monitor and the expected DHS site?

There are more issues that JR is capturing and some that I haven't thought of. Ms Waggoner had a few concerns that will need to be addressed as well.

More to follow.

Yours,

(b)

(b) (6)

Is this map still needed? If so, do you want the dimension in feet from the hospital electrical substation to site-monitor and from Montana to site-monitor along the existing roads cutting through the parcel or along the boundary of the parcel to the areas?

Thank you,

(b) (6)

Pls add two 75 acre rectangles within the EA area in close proximity to site-monitor just for reference. Also, provide the dimension in feet of all the sides of the EA parcel, from the hospital electrical substation to site-monitor and from Montana to site-monitor.

Thx.

They were asking for the portion of the parcel that is covered by the EA.  
They don't want to plan something in a location that they come to find out  
is not within the perimeter of the footprint offered.

For the DPW team, if possible, could we have someone available with keys for the buildings inside site monitor for tomorrow's site visit?

Also a reminder for the GPS plots for site two, as requested by LOGCAP
